

Call for Papers -- SwissTribology 2023 -- August 22nd

Dear Tribologists,

the topic energy efficiency is more important than ever. Optimizing tribological systems can directly lead to a reduction of power losses and by that a reduction of costs.

You would like to give a presentation about the latest scientific findings in this field of tribology at the **SwissTribology 2023 Symposium**?

Join us at the **ZHAW in Winterthur on August 22nd, 2023**.

Until **May 12th, 2023** abstract submission for papers is open.

The focus for abstracts is in the field of:

- Tribosystems
- Materials and Materials Technology
- Lubricants and Lubrication Technology
- Thin Films and Surface Technologies
- Machine Elements and Transmission Technology
- Tribometry
- Machining and Forming Technology
- Tribology in Watch Technology
- Biotribology, Life Science
- Haptics and Tactile Perception of Surfaces
- Sustainability by Tribology

Duration of presentation: 20 minutes + 10 minutes discussion

Language of speech: English / German / French / Italian

Language of slides: English

Language of abstract: English

All further information you will find on our website: <https://swisstriology.ch/>

You want to give a talk, build up a booth or be part of the audience? Please write to emanuel.tack@oerlikon.com

We look forward to your submission!
Emanuel, Rowena, Mousab & Christof
